DISCOVERING YOUR GENIUS

Even the most capable teams can feel stuck, misaligned, or frustrated - why does work that should feel energizing sometimes feel draining instead?

Productivity challenges rarely stem from a lack of intelligence or effort. More often, they come from misunderstanding how work flows from idea to execution and how each person is uniquely wired to contribute along the way.

This interactive program introduces The 6 Types of Working Genius®, a practical framework from The Table Group that helps professionals identify where they thrive, where they struggle, and how to collaborate more effectively without restructuring roles or changing teams.

Unlike traditional personality assessments, Working Genius is built as a productivity tool. It gives teams a simple, shared language for how work gets done, clarifying how different strengths show up in meetings, projects, and cross-functional collaboration. Participants will learn to regulate their contributions, reduce friction, and drive better outcomes.

Through guided reflection and real-world application, professionals will leave with an immediately actionable framework that improves alignment, accelerates momentum, and supports sustainable team performance.

Audience:
Professionals at all levels across industries who want to better understand how they contribute to work, improve collaboration across teams, and increase productivity without increasing burnout.

Cost: $725 General Registration

0.6 CEUs will be issued for this program

Duration:
This program consists of one full-day, in-person session.

Participants will walk away with these skills:

- Using the Working Genius model to pinpoint where work gets stuck and improve collaboration across roles and functions.
- Reducing guilt and judgment by recognizing how different geniuses show up at work.
- Regulating their genius in meetings and projects to reduce "turbulence," strengthen handoffs, and keep work moving forward.
- Designing more effective meetings aligned to the right type of work, with clear expectations, roles, and follow-through.
- Creating practical commitments to apply immediately, improving results within their current role and team.
